THE TOP

Reasons to Consider

MOVING TO THE AD PEEPS CLOUD

AD PEEPS HOSTED

www.AdPeeps.com

01

HASSLE FREE MAINTENANCE

With downloaded ad server software you are subject to security exploits – especially if the software is not maintained frequently. In addition the back-end infrastructure changes quickly such as new updates to PHP or MYSQL that could break your software. The cloud helps to isolate you from these risks.

02

EASES LOAD FROM YOUR WEB SERVER

The very nature of ad serving requires every single visitor and every ad displayed or clicked to be recorded to a database. If you have even a marginally high traffic site this could be very resource intensive to your web server, eat up bandwidth and slow down your site.

03

COST LESS THAN 1 CUP OF COFFEE PER MONTH

Ad Peeps Hosted offers many value added features such as built-in geotargeting, real-time statistics, the ability for advertisers to manage their own accounts and the ability to use private branding such as using your own domain (ie ads.YOURDOMAIN.com) or uploading your logo starting at just \$3.99 per month

04

24x7 SUPPORT

If your on-premise (downloaded ad software) has technical problems -- and it happens to us too such as database corruption, the server has slowed down, the hardware failed do you want to be in a position to have to hire help or take time away from your business to fix it yourself? We'll handle this.

05

RELIABLE INFRASTRUCTURE

We utilize industry best redundant servers with failover capabilities and automated database backups to give you a true peace of mind. Our optimized web servers are built specifically for ad serving ensuring fast delivery and unbeatable uptime.

06

GEOTARGETING DATABASE INCLUDED

The geotargeting database with Ad Peeps Hosted comes included in your monthly fee. This feature allows you to target ads to users in specific countries or even cities.

07

AUTOMATED UPDATES

With Ad Peeps Hosted we take the worry and hassle away from keeping your software up-to-date and secure. New features and enhancements are automatically applied to your account.

08

UNLIMITED WEBSITES

The Ad Peeps Hosted solution allows you to manage “unlimited” websites. You're only limit is the generous impression limit. You also have the ability to create sub-accounts under your main account allowing you to separate your websites.

09

ZERO SOFTWARE TO INSTALL

You can start serving ads immediately with Ad Peeps Hosted. There is no database to setup or configure or software to download and install on your web servers.

10

TRY IT FOR FREE

Even though because of our low cost your risk is already small, we offer all prospective customers a FREE 7 Day Trial. No Credit Card Needed.
